Witness Testifies that Russel Drew Gun on Manuel Before the Killing.

Before the Killing.

The question as to whether the testimony of Abram Sano, a witness to the alleged assault on Manuel Guaderrama by state ranger Scott Russell on the morning before the killing of Russell and doputy sheriff W. H. Garlick, would be admitted, occupied considerable time Monday morning in the trial of Juan, Jesus and David Guaderrama, charged with the murder of Russell and Garlick. The testimony was finally admitted.

Sano testified that he was in the saloon with several other Mexicans. The young officer, he said, punched Manual Guaderrama with a cocked pistol, after which he followed Pablo Ramos behind the bar. The witness was asked by the state how many drinks the officers took while in the saloon. He replied that each had taken one drink. The testimony of Sano developed that he zand Pablo Ramos had been talking together about the case, and on that ground the state moved that the testimony be excluded from the record. The lury was retired while the question was discussed. Judge W. D. Howe finally overruled the motion of the state.

Witness Out of State.

W. A. Banks of Floyd county, Texas, was placed on the stand by the state to prove that Sergt, J. H. Serkes, one of the first to reach the scene after the killing, is out of the state and not available. Serkes is a soundaw of Banks.

The defence read an affidavit made by A. J. Davis at the time it was sought to reduce Juan Guaderrama's bond, which Paci.

was the first witness on the stand. He told of having encountered Garlick and Russell in the salcon during the morning and the street of the s

behind the country, while Garlick stood outside the counter. The witness, cross examined, thought that Manuel Ochoa and Manuel Guaderrama must have been mistaken in their testimony that Guaderrama was firleen from the room by Russell and Garlick.

DOCTORS ARE URGED BY GRAND JURY TO REPORT

The grand jury returned a special report Monday at noon regarding the failure of doctors, nurses and midwives to report deaths and births. The grand jurys report said that its investigation had shown that many births occur without an attending physician and that no records were made by the parents or midwives. The grand jury called attention to the resolution of the El Pano County Medical society which called upon all of its members to make full reports on deaths and births and cooperate with

Gen. Funston is said to have declared that the 15th cavalry was one of the most efficient cavalry resiments on the border and that he was opposed to breaking up this regiment and sending the colors, guidons and a few of the recruits to the islands and having the officers and the older cullisted men transferred to the other cavalry regiments. Because they had had Island service, a majority of the officers and all of the older sullsted men would not have accompanied the regiment to the Philipplies, and the complete demoratization of the regiment would have resulted, army officers declare. To prevent this, Gen. Funston succeeded in having the regimental orders canceled and hopes to have the 15th remain at Fort Bliss.
